ABOUT

Undergraduate student of the Business Informatics programme at ITMO University.

I work at the intersection of product management, marketing, business analytics and applied AI. I have hands-on experience building AI products from scratch (voice assistants, chatbots) and adapting LLMs to the needs of modern digital services. I know how to work with an audience: run customer development, generate product hypotheses, translate user pain into technical requirements and lead a team.

EXPERIENCE

Assistant Product Manager
October 2026 — Present

SKB Kontur

Won a business simulation game run by SKB Kontur as part of my ITMO programme: the game earned me a place on the company's product practice track, and I finished in the track's top 10, receiving additional financial support.

Internal Automation & Digital Transformation Product Manager
March 2026 — Present

Sistema PB LLC

Automate the company's internal business processes with AI tools and no-code solutions: building out data-handling and routine-task flows so the team spends less time on manual work.

Educational & Extracurricular Projects Manager
September 2025 — Present

ITMO University

Delivered a series of large-scale business and educational events end to end: a lecture series by top managers from industry-leading companies as part of the «Entrepreneurial Culture» module at ITMO University, «Startup Night 2025», the largest event for startup founders in St. Petersburg, and «Business Tinder», informal meetups with IT company CEOs.

Product Manager / CEO
September 2025 — March 2026

«Smart Calendar» startup / pet project

Took the product through two MVP iterations, scaling it from a test Gem bot to a full Telegram bot with smart Google Calendar integration.

Summer Admissions Campaign Manager
May 2025 — September 2025

ITMO University, FTMI Admissions Office

Coordinated flows of applicants and students during FTMI's summer admissions campaign: advised applicants on programmes and the application process.

PROJECTS

TRUUSER — Multi-agent AI platform for UX research — **March 2026**

Application No. 4354621 · Innovation Assistance Foundation

Built the financial model (₽1,999 Pro subscription): NPV ₽4.5M, ROI 7.3x, 6-month payback period.

Stack: Gemini · RAG · Chroma · Python · PostgreSQL · JavaScript · YooKassa

Open the deck ↗

ALFA RITM — Product concept for a customisable social network for Alfa-Bank's audience — **July 2025**

«Alfa Future» case championship · Team captain

Built the financial model: a ₽300/month subscription, projected revenue of ≈₽450M/year, ≈78% profitability and 350% ROI, plus key risks and mitigations.

Stack: CustDev · Data-driven Research · Business Model · Unit Economics · Pitching

Open the deck ↗

TAYA — A local voice-and-text AI assistant built around privacy — **September 2025**

Course project, «Innovation Project Management», ITMO · Team of 3

Built a financial model under two scenarios: NPV from ₽1.9M (pessimistic) to ₽225.6M (optimistic), with profitability index and discounted payback period.

Stack: LLM · RAG · Vector DB · AI Agents · TAM/SAM/SOM · NPV/PI

EDUCATION

ITMO University — **2024 — Present**

BSc, Business Informatics

Yandex Practicum — **July 2025 — December 2025**

«Product Marketer»

Certificate ↗

Alfa-Bank (Aktion Students Academy) — **November 2025**

«Sales and Business Communication»

Certificate ↗

Yandex Practicum & HSE Faculty of Computer Science — **January 2026 — May 2026**

«AI for Theses and Academic Projects» (Core and Advanced tracks)

Certificate ↗

Özyeğin University (Istanbul) — **February 2026 — June 2026**

Academic Mobility — Semester Exchange

How I talk about my exchange ↗

English

Advanced

SKILLS

Hard Skills

AI & Technology

Prompt Engineering · LLM Integration (Gemini, OpenAI, Claude) · AI Agents & No-code · CJM & User Stories · Statistical Data Analysis (R) · Data Analysis & Visualisation

Analytics

Market Sizing · LTV, CAC & ROI Calculation · Consumer Behaviour Modelling · Segmentation & Persona Building · Econometrics & Regression Analysis · Panel Data Analysis

Marketing

Go-to-Market Strategy · Product Marketing · Yandex Metrica · Google Analytics · International Marketing · Cross-Cultural Marketing

Product

CustDev & JTBD · Hypothesis Testing (A/B) · Product Lifecycle Management · Engagement Metrics (DAU/MAU) · Cohort Analysis & Retention · B2C Scenario Design

Finance

Unit Economics · Financial Modelling · Financial Statements (P&L, Balance Sheet) · Taxation (VAT, Corporate Income Tax) · Microeconomic Analysis · Pricing & Demand Analysis

Soft Skills

Stakeholder Management · Crisis Management · Team Leadership · B2B Negotiations · Project Pitching · Data-driven Approach · Cross-functional Collaboration · Results Focus

RESEARCH & PUBLICATIONS

Publications

«A study of the artificial intelligence technology transfer process in higher education institutions»

«Integrating data-driven and behavior-driven approaches to achieve true product market fit»

Both papers appear in the proceedings of the «Young Professionals» conference (2025). **Open the proceedings**

International Forum: 22nd International Entrepreneurship Forum (IEF)

September 2026 · Istanbul, Türkiye · Özyeğin University · Process section. Paper «Prioritizing AI Adoption Across Financial Business Processes: An Expert-Based Assessment of Benefits and Implementation Complexity».

Conference materials ↗

Research Project: NIRMA FTMI Research Grant

Taking part, since September 2026, in a research project at ITMO's Faculty of Technological Management and Innovations on intelligent support for managerial decisions built on heterogeneous data and AI methods. The project spans three tracks — business-model change, consumer behaviour and digital-trace analysis, and synthetic AI personas for product research — converging on a shared methodology for turning data into well-grounded management recommendations.

Conferences & Forums

«Smart Business & Applied Science» International Scientific Forum (May 2026) · 15th Congress of Young Scientists (April 2026) · 55th Scientific and Educational-Methodological Conference of ITMO University (January 2026) · 4th International Conference «Young Professionals» (October 2025)
